UK Landlord Rental Tracker

Guide · tax year 2026-27

This spreadsheet keeps the rent and costs for up to five UK properties, works out your share of each, and adds everything up for each Making Tax Digital quarter and for your SA105 UK property pages. It works in Excel, Google Sheets, Apple Numbers and LibreOffice.

Please read. The tracker keeps your records and adds them up. It does not submit anything to HMRC and does not work out the tax you owe. Use HMRC-recognised bridging or MTD software to send quarterly updates. It is a record-keeping tool, not tax advice: check anything you are unsure about with HMRC guidance or an accountant.

What's in the download

- **UK-Landlord-Rental-Tracker-2026-27.xlsx**, the blank tracker.
- **UK-Landlord-Rental-Tracker-EXAMPLE.xlsx**, filled in with two example properties.
- This guide.

Open the file

- **Excel or Numbers:** double-click the file. If Excel shows Protected View, click Enable Editing.
- **Google Sheets:** upload to Google Drive, open it, then File > Save as Google Sheets.

Set up in 3 steps

1. On **Settings**, type your name and the year the tax year starts (2026 for 2026-27).
2. List up to 5 properties with your share of each (100% if you own it alone). Spouses and civil partners are taxed 50:50 unless they have sent HMRC Form 17.
3. Record rent on **Income** and costs on **Expenses**, choosing the property each time. Enter the full amount; the Your share column works out your part.

The expense lines

Choose one of these for each cost (SA105 UK property lines)
Rent, rates, insurance and ground rents
Property repairs and maintenance
Non-residential property finance costs
Legal, management and other professional fees
Costs of services provided, including wages
Costs of replacing domestic items
Other allowable property expenses
Residential property finance costs

- **Mortgage interest** goes under Residential property finance costs. Since 2020 it is not deducted from profit; it gives a basic-rate (20%) tax reduction instead, so the tracker keeps it apart.
- **Improvements** such as extensions or upgrades are capital costs, not expenses. Like-for-like replacement of furniture and appliances goes under Costs of replacing domestic items.
- **Furnished holiday lets** are treated as ordinary lets from 6 April 2025.

Quarters and deadlines (standard dates)

Quarter	Period	Update due by
Q1	6 April to 5 July	7 August
Q2	6 July to 5 October	7 November
Q3	6 October to 5 January	7 February
Q4	6 January to 5 April	7 May

The final declaration is due by 31 January after the tax year ends.

The Year End checks

- **Property allowance:** you can deduct a flat £1,000 instead of your actual expenses. The sheet tells you which is higher. If you use the allowance, you cannot also deduct expenses or claim the finance cost reduction.
- **Making Tax Digital:** your share of gross rent plus any self-employment turnover (type it in Settings) is compared with the £50,000 (April 2026), £30,000 (April 2027) and £20,000 (April 2028) thresholds. HMRC tests the year before, so treat it as a guide.

Good habits

- Record things monthly, with a reference for every row, and keep the receipts and agent statements.
- Use one copy per tax year: save a copy, clear the cream cells and change the year.
- Grey cells hold formulas and are protected without a password (Review > Unprotect Sheet).
